Hi Jen,

The engineer added the front entrance to the building, details on the Handicap ramp, located the trash and recycling and details on the additional drywell that is located in the rear of the parking lot. There are two sets of dry wells in the existing parking lot. The building, parking and road entrance are all the same with no changes.

I am sorry! I hope this has not complicated the application.

Thank you, Jim

Jim,

I spoke with Kate. She needs to no exactly what was changed, written in an email or letter.

We have already distributed the app and plans to internal departments for review, and also the county.

This might need to be sent out all over again.

jen
