

July 19th 2018

Chairman Torpey and others of Planning Board,

This proposal does not benefit the neighborhood at all. It is pushing the limit as to what a convenience store is. It is admitted in the proposal to carry only the minimal items to classify as a convenience store. It is not a convenience store.

Living next door to this project I believe that it will (1) adversely affect my ability to rent my apartment at a fair value, (2) affect my privacy in my side yard, and (3) decrease my overall property value.

David & Karen Dixon
