Hi Jennifer,

It was nice to meet you the other day when I dropped off the check and the application.

The roof is going to be, with approval, Galvanized Prepainted black, standing metal seam. Item is ASP SL-150 24 gauge 19" I believe. Architectual Sheetmetal Product Inc. Custom made in Amsterdam Rd. Scotia, NY.

I called the Preservation Center and have not heard from them so I am about to stop by and see what they say. ONce I hear from them I will get back to you.

Thanks for your help,
Karen Jameson

Jennifer,

Attached is my application for a new roof. I spoke with you Thursday about the signatures not saving to file and you said it was ok as long as you had them on the printed application.

If you have any questions please let me know.
Thank you ,
