EAST SIDE FIRE/EMS STATION 3 IS ON THE MAP!

Mayor Meg Kelly, City of Saratoga Springs, is thrilled to announce that she has secured a tentative agreement for a third FIRE/EMS station. Mayor Kelly is negotiating a land-use agreement for a parcel located on the Oklahoma side of the Saratoga Race Course, after years of unsuccessful efforts spanning numerous administrations. This station will serve “District 3”, including the ‘eastern plateau’, a region that has been advocating since its considerable growth for improved response rates.

“Finding the right location to meet this critical need has been my top priority,” states Mayor Kelly. “My administration has been steadfast in its efforts to make improved FIRE/EMS service a reality for our citizens, and it is happening.

Thanks goes to the Franchise Oversight Board for its thoughtful consideration of an excellent solution to this longstanding issue. I would also like to thank the New York Racing Association (NYRA) for supporting and facilitating this important public safety matter.”

The Mayor believes that the long-awaited FIRE/EMS Station 3 will be huge asset to the people of the City of Saratoga Springs.

“I appreciate all of the many efforts that have gone into and will continue to go into the completion of this essential building and service. We will see this through,” states the Mayor.
