**NEIGHBORHOOD PUBLIC IMPROVEMENTS: 2017 Eligible Areas
YEAR 2017 PROGRAM IMPROVEMENTS**

PROPOSED BY THE CITY OF SARATOGA SPRINGS
DEPARTMENT OF PUBLIC WORKS

INFRASTRUCTURE IMPROVEMENTS / CURBS AND SIDEWALKS

NEED IDENTIFICATION:

The project, entitled Neighborhood Public Improvements, represent a continuation of infrastructure program work begun several years ago in eligible areas throughout the City including the City's North Side, South Side, West Side and East Side neighborhoods. The Department of Public Works has worked with Sustainable Saratoga in conjunction with the walkability program. A large majority of the streets listed below have a dense population of seniors. The primary focus of our infrastructure improvement program has been to first concentrate on the construction or reconstruction of sidewalks where necessary throughout the eligible neighborhood areas.

Experience has shown that these types of neighborhood improvements significantly benefit eligible low to moderate-income areas within the City of Saratoga Springs.

We propose to continue the program of construction for sidewalks, curbs, and handicap accessibility within the targeted area of low to moderate income in the city per the 2000 Census. After a thorough inspection the following areas were determined to be in need of repairs to various sections of the sidewalks:

1 Congress Avenue	10 Franklin Street	54 Van Dam Street
3 Congress Avenue	34 Franklin Street	58 Van Dam Street
17 Congress Avenue	36 Franklin Street	60 Van Dam Street
19 Congress Avenue	39 Franklin Street	62 Van Dam Street
	47 Franklin Street	64 Van Dam Street
131 Hamilton Street		66 Van Dam Street

We believe that this investment in infrastructure improvements will greatly improve pedestrian safety, while at the same time adding to and enhancing the visual and economic characteristics of these neighborhoods. A visual inspection of these areas will confirm the need for Curbs, Sidewalks and Handicapped Access Ramps at critical locations.

ACTIVITY DESCRIPTION:

Funding for this phase of the neighborhood infrastructure improvement program will allow the City to continue with this highly successful program.

This work will primarily consist of excavating and removing existing sidewalk and curb material and the construction of new concrete curbs and sidewalks, including handicapped access ramps

We propose to construct these infrastructure improvements during the 2015 summer and fall construction season.

APPLICANT EXPERIENCE:

Work will be performed by personnel from the Department of Public Works, which has a successful history of constructing these types of projects.

The DPW Concrete Construction Working Supervisor will oversee and supervise the construction. The Deputy Commissioner of Public Works also supervises field operations and construction procedures.

The construction crew consists of six Full-Time Public Works employees.
